Shure 600 MHz Rebate Program

In an effort to help customers adapt to the results of the FCC Spectrum Auction affecting the 600 MHz frequency band, Shure is announcing a trade-in and rebate program for its wireless systems.

Due to the FCC spectrum auction, use of wireless microphones and personal monitor systems in the frequencies between 616 MHz - 653 MHz and 663 MHz-698 MHz ("600 MHz Band") will eventually be prohibited by law.

Customers using wireless systems that operate in the 600 MHz Band should plan to transition to another range of spectrum.

Shure's 600 MHz Wireless Rebate allows you to trade in your eligible system for a rebate towards your purchase of a new system. The rebate program runs from April 17, 2017 until April 30, 2018.

How to claim your rebate:

1. Click [here](#) to check if your old Shure or non-Shure system is eligible for trade-in and review rebate requirements in the [Terms and Conditions](#).
2. Purchase a [new eligible Shure wireless system](#).
3. Complete an online [600 MHz Wireless Rebate form](#).
4. Pack and ship your old product to Shure along with your printed confirmation page. Use a trackable shipping method.
5. Receive a check from Shure. Please allow 8-10 weeks for delivery.
